Values-in-Action Programme: Reduce @ North West

Dear Parents/Guardians,

As part of our efforts to develop our students holistically, Primary 6 students will be participating in the Reduce @ North West Programme. This is in collaboration with North West CDC as an outreach programme to encourage families to reduce energy and water consumption, and food wastage in their homes. They will also encourage residents to sign up for the conservation programme by North West CDC.

Students will spread climate change, energy and water efficiency messages, and food wastage reduction tips through door-to-door home visits at designated HDB blocks near the school. They will build communication skills, team work and confidence as they engage the community.

Students will report to school at the usual time and they will work in assigned groups with an adult chaperon at all times. The information for the activity is as follows:
