

Experiencing WGPS

LEARNING FESTIVAL

The Primary 4 Woodgrovians eagerly returned to school, where they were meaningfully engaged with three days of engaging and exhilarating activities as part of the Learning Festival. This year's theme, "SOAR towards Our Dreams," motivates all Woodgrovians to adopt a growth mindset and pursue their goals with resilience. Our Woodgrovians had the unique opportunity to experience subzero temperatures firsthand, providing them with a hands-on understanding of this scientific phenomenon at the Snow City. In addition, the Sports Enrichment Programme offered them a chance to explore Kinball, fostering teamwork and collaboration. The Learning Festival has created lasting memories for the students, strengthening camaraderie amongst students and teachers and developed in them a deeper appreciation for learning.
