

EXPERIENCING WGPS LEARNING FESTIVAL

In Term 3, our Primary 3 Woodgrovians were welcomed back to school with a diverse range of engaging activities as part of the Learning Festival. In addition to decorating their bag tags with inspiring Growth Mindset quotes, they had the opportunity to learn archery through the Primary 3 Sports Education Programme (SEP). The students also gained valuable knowledge about financial literacy during the EYE-YAH! Money Sense Workshop and participated in the 'Every Child A Seed' programme, where they planted seeds as an extension of their Science and Social Studies curriculum. Furthermore, our Woodgrovians took part in station-based interdisciplinary activities, such as creating batik designs inspired by the floral motifs they observed during their Amazing Race Challenge at Hort Park. These exciting experiences during the 3-day Learning Festival not only provided enjoyment but also strengthened friendships and fostered a sense of class spirit among our Primary 3 Woodgrovians.
