

EXPERIENCING WGLPS

LEARNING FESTIVAL

The Primary 6 Woodgrovians resumed their school routine in Term 3 filled with three days of engaging and exciting activities as part of the Learning Festival. Our P6 Woodgrovians also had the opportunity to go on a discovery trail to the Gardens by the Bay as an extension of their learning of Social Studies curriculum that includes 'Appreciating Singapore, the Region and the World We Live In' and Science concept of 'Diversity'. This authentic learning has fostered a keener sense of curiosity and learning, helping them to gain a deeper understanding of the diverse flora and remarkable adaptations these plants have developed to adapt in different environments.
