

# Experiencing WGPS

## LEARNING FESTIVAL

Our Primary 1 Woodgrovians started their Term 3 with an exciting array of activities as part of the Learning Festival. They folded paper aeroplanes, inscribing them with inspiring Growth Mindset quotes. Through the Primary 1 Sports Education Programme (SEP), they learned the fundamentals of bowling. The students also showcased their creativity by building Lego structures during their Makerspace Activity and learned more about biodiversity. As part of their Social Studies and Programme for Active Learning (PAL) curriculum, they explored the Woodgrove Estate, familiarizing themselves with local amenities and gaining insights into the community's role in their lives. These diverse experiences have enriched our Primary 1 students' educational journey at Woodgrove, fostering a greater appreciation for learning that extends from the classroom to the community.
